

ROLTRON 860B

GENERAL FEATURES

Scrubber dryer man on board with batteries ideal for big companies, it works on any floor, very compact, maximum strength, high performance with economy.

- Solution distribution from brush center to avoid solution wastes
- Anti foam system with special electromechanical suction motor protection. Automatic suction stop when the tank is full.
- squeegee designed for the highest drying and productivity results.
- Easy to use thanks to intuitive commands
- Brush blades and suction hose replacement without tools
- Deactivation and re-start of working function simply with a command on pedal. It includes brush and suction delayed stop.
- Tank can be easily tilted to check the internal areas of the machine
- self levelling mechanical system for an always perfect adherence between brush and floor
- Brush rotation: independent oil bath motor gear box
- Brush pressure: on-off actuator
- Suction: 2 stages with stainless steel fans and shaft
- Squeegee: automatic lift during reverse
- Traction : motor wheel with parallel axis, 8% climbing rate
- Chassis : double treatment with galvanizing 9+ die-casting
- Bearings: shielded against damp and water

Complete with batteries and nylon brushes

Maximum productivity
3500 m²/h

Autolivellante
contact weight system

automatic brush pressure control

intuitive control panel, extremely easy to use
